3. The Right to Ride Bill has passed in the House and is now in the Senate. Forest Service area riders pay attention to trail classifications and status. Input regarding any changes is most important to riding groups and organizations....to keep updated and ready for political actions. Participation in public meetings regarding these issues is necessary to promote our interests.

FYI:

Joy Erickson showed us the handsome BCHPC saddle bags for use at the Pierce Cty. Fair. Invitations went out to WWLC members to help park cars at the Fair.

Dee Varca is looking for a riding donkey or small riding mule.

Meeting was adjourned at 9:55 AM. (Pam Jenks, Sec.)
